## How to Maintain your flooring

## LAMINATE

Laminate flooring is extremely hygienic and easy to keep clean. Here are recommendations to keep your laminate flooring looking beautiful for many years.

### General cleaning

Routine cleaning requires just vacuuming, dusting with a clean, dry cloth, or a damp mop to prevent loose dirt or grit from scratching your floor's finish. Use non-staining walk-off mats by the entrance of all outside doorways. Use a damp mop to remove footmarks and most stubborn dirt. Always be sure that your mop has been thoroughly wrung out.

- Never wet mop or use excessive amounts of water on your laminate floor.
  - Never use scouring substances, abrasive cleaners, paste waxes or any floor polishes on your laminate floor.
  - Marks and stubborn stains can easily be removed with Acetone nail polish remover or other mild solvents containing alcohol.
  - Felt pads should be affixed to the base of all furniture legs and drip trays should be placed underneath any planted pots.
  - Movable furniture should be fitted with wide, rubber rollers.
  - The use of 'soap-free' cleaners on a regular basis is all you need to do to keep your floor looking beautiful for many years.
  - Use protective mats at exterior entrances and in heavy traffic areas
- This is a brief guide on maintaining your laminate flooring; always refer to the manufacturer's installation guides in the packs of the flooring.
